Subject: Permit to Commence Small Mining Operations, Perihelion Global Inc.,  
Saturday Night #1 & #2 Mine, S/003/076, Task ID# 1732, Box Elder  
County, Utah

Dear Mr. Beebe:

The Division finds your notice of intention (Notice) complete and approves the reclamation surety for the Saturday Night #1 & #2 mine. You are now permitted to conduct small mining operations as outlined in the Notice with the Division. However, you must also receive written approval from the Bureau of Land Management prior to beginning operations.

Please keep in mind the following regulatory requirements.

- The Division must be notified no later than 30 days after beginning mining operations.
- Mining disturbance is only allowed in the area identified in the Notice and Reclamation Contract.
- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material are worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office and State History of your find.
- Permit fees are due July 30.
- Annual reports are due by December 31st.
- The reclamation surety will be reviewed every 3 years.
- The Division requests that the disturbed area boundary (including access/haul roads) be marked with metal T-posts to identify the area permitted for mining.
